Categories: Lepic 3-22 to 4-4

Bernie: I am forwarding Marc's email to Paul DesFossess regarding schedule for tomorrow. I will meet you and Paul at the FMC trailers at 1 MDT tomorrow for the site safety training and then proceed onto the site. Bill Bragdon is our field supervisor for the project. The drill rig should be set up on the first well site, but will not start drilling until the three of us are on site.

As a reminder, minimum safety gear includes a hard hat, safety-toe boots, safety glasses with lateral protection and work gloves. Safety vest must also be worn in areas of operating heavy equipment (e.g., drill rig). FMC has 2 sets of the required safety equipment for EPA in the EPA office within the FMC trailers.

Contact me on mobile phone at 208.241.8216 if questions, otherwise I will see you tomorrow. Thanks, Rob

Subject: Schedule at FMC this week

Paul:

I left you a voice mail, but wanted to pass on information as a follow-up to our phone conversation last Friday. Bernie Zavala of EPA Region 10 will be showing up tomorrow (Tuesday) at 1 pm. If you can be there at that time, Rob Hartman will provide both of you with H&S training. The driller will begin mobilization after your H&S training tomorrow afternoon.

Starting tomorrow, the driller is planning to do 8 straight days (about 10 hrs per day) and then take a break. Schedule after that will be determined later.

Hope this helps,

Marc Bowman
